TRACEABLE MODEL-BASED DEVELOPMENT

FOR YOUR COMPLEX SYSTEMS

LieberLieber Software

YOUR **REQUIREMENTS**

You attach particular importance to the quality of your software and system development and therefore use a model-based approach.

OUR **COMPANY**

We are a software engineering company. Our know-how lies in model-based software and system development based on tools such as Enterprise Architect and our own LemonTree solution.

OUR **PRODUCT**

LemonTree is the only tool that can reliably split, compare and merge extensive Enterprise Architect models, thus meeting the need documented, traceable model development.

WHAT ARE THE BENEFITS OF LEMONTREE?

LemonTree enables your developers to work efficiently with models.

FUNCTIONAL SAFETY

The functional safety requirements of your end product are met:

"Generally, standards such as IEC 61508 require configuration management. For us, LemonTree is the key."

DIPL.-ING. (FH) STEFAN MÜLLER, HIMA

TRACEABILITY

Your company can rely on the traceability of changes in the models:

"LemonTree enables us to make the processes in Enterprise Architecture Management transparent and traceable for our customers and partners."

MARKUS SCHMITZ, CONET SOLUTIONS

MOTIVATION

Your employees are better motivated:

"We are thrilled that the functionalities of wLemonTree are constantly being expanded."

STEPHAN REUTER, ANDREAS STIHL AG & CO. KG

USE OF ESTABLISHED PROCESSES

Your employees can leverage proven processes:

"Thanks to LemonTree, we can now also implement the proven processes and workflows from classic software engineering for models."

SRINIVAS SHENOY, INFINEON TECHNOLOGIES

QUALITY IMPROVEMENT

Your employees' results are getting better:

"LieberLieber has supported us very well with LemonTree in the stable anchoring of model-based software development within our company."

HERMANN GOLLWITZER, VW

TIME SAVING

Their employees achieve more in the same amount of time:

"Through UML modelling we have been able to achieve a much higher level of data quality. I would describe LemonTree as a Swiss knife for models."

DR.-ING. JÖRG VON LINGEN, RAILML.ORG
